Official Statement

Ref # : **NMy E-1**

No Mycotoxins / Official Statement

Mycotoxins are toxins generated by fungi or molds when they contaminate crops or rotten fruits or vegetables.

Macco Organiques Inc.'s products, including *calcium acetate, calcium propionate, potassium acetate, potassium benzoate, potassium chloride, sodium acetate, sodium benzoate, sodium diacetate* and *sodium propionate*, manufactured at its Salaberry-de-Valleyfield plant, are not from an agricultural or vegetal origin. Macco's products are the result of chemical syntheses which do not make use of vegetal or vegetal containing raw materials. In addition, based on our knowledge and controls of our incoming raw materials, manufacturing processes, controlled handling, storage and shipping of our products, there is no potential for *Mycotoxins* and their metabolites, like *Aflatoxins, Aflatoxicol, Amatoxins, Citrinin, Cytochalasins, Ergotamine, Fumonisin, Gliotoxin, Ibotenic acid, Muscimol, Ochratoxins, Patulin, Sterigmatocystin, Trichothecenes, Vomitoxin (Deoxynivalenol), Zeranol and Zearalenone*, to be present in any Macco product.

Macco's manufacturing facility is a FDA bioterrorism, FSMA and C-TPAT registered facility that operates under an ISO Food Safety System FSSC 22000 (GFSI approved) and in compliance with food GMP. Pharmaceutical grade products are manufactured according to cGMPs. Macco's facility is audited yearly.

Liability: The information submitted in this document is based on current knowledge and experience. Macco Organiques Inc. does not accept any liability whatsoever in respect of the use of this information nor in respect of use, application, adaptation or processing of the product described herein.
