Date: April 20th, 2021

Supersedes: March 27th, 2020

Official Statement

Ref # : **OVI-RS E-1**

Residual Solvents / Official Statement

Macco Organiques Inc.'s products, including *potassium chloride, calcium acetate, calcium propionate, potassium acetate, potassium benzoate, sodium acetate, sodium benzoate, sodium diacetate* and *sodium propionate*, manufactured at its Salaberry-de-Valleyfield plant, are free of *Residual Solvents* and meet the requirements outlined in the USP (USP<467>), the EP (section 5.4.) and the ICH guidelines (Q3C(R6)).

Based on our knowledge of the manufacturing process and on controlled handling, shipping and storage of the material, there is no potential for organic solvents to be present because the only solvent used in our manufacturing process is potable water.

Macco's manufacturing facility is a FDA bioterrorism and C-TPAT registered facility that operates under an ISO Food Safety System FSSC 22000 (GFSI approved) and in compliance with food GMP. Pharmaceutical grade products are manufactured according to cGMPs. Macco's facility is audited yearly.

Liability: The information submitted in this document is based on current knowledge and experience. Macco Organiques Inc. does not accept any liability whatsoever in respect of the use of this information nor in respect of use, application, adaptation or processing of the product described herein.
