Pallets Not Chemically Treated and Heat Treated

Official Statement

Macco Organiques Inc uses standard local wood pallets, for North American shipments and heat-treated pallets for ISPM-15 regulated countries.

All Macco's authorized pallet suppliers confirm that the pallets they supply us are not chemically treated, particularly with the fungicide tribromophenol (TBP) and they confirm that the wood used to make the pallets originate exclusively from North America and has not been chemically treated, particularly with the fungicide tribromophenol (TBP).

The heat-treated pallets we use conform to the (IPPC) ISPM-15 standard and are marked accordingly.

Macco's manufacturing facility is a FDA bioterrorism, FSMA and C-TPAT registered facility that operates under an ISO Food Safety System FSSC 22000 (GFSI approved) and in compliance with food GMP. Pharmaceutical grade products are manufactured according to cGMPs. Macco's facility is audited yearly.

Liability: The information submitted in this document is based on current knowledge and experience. Macco Organiques Inc. does not accept any liability whatsoever in respect of the use of this information nor in respect of use, application, adaptation or processing of the product described herein.
