Absence of Substances of Very High Concern / Official Statement

Macco Organiques Inc.'s products, including *calcium acetate, calcium propionate, potassium acetate, potassium benzoate, potassium chloride, sodium acetate, sodium benzoate, sodium diacetate* and *sodium propionate*, manufactured at its Salaberry-de-Valleyfield plant, are the result of chemical processes which do not make use of *Substances of Very High Concern (SVHC)* or any raw materials which contains *SVHC*, as defined in *article 57 of Regulation (EC) No 1907/2006, "the REACH Regulation"*. Based on our knowledge & controls of our incoming raw materials, based on our knowledge & controlled manufacturing processes and based on the controlled handling, storage and shipping of our products, there is no potential for *SVHC* to be present in all the Macco's Products.

Macco's manufacturing facility is a FDA bioterrorism and C-TPAT registered facility that operates under an ISO Food Safety System FSSC 22000 (GFSI approved) and in compliance with food GMP. Pharmaceutical grade products are manufactured according to cGMPs. Macco's facility is audited yearly.
