

Safety Data Sheet

Page : 1/6

According to Regulation (EC) No 1907/2006

Issue date : January 14., 2009

Revision # 3, date : March 20, 2020

1: Identification of the substance / mixture and of the company / undertaking

1.1 Identification of the substance :

Trade name:	Sodium sulphate
Chemical name:	Sodium sulphate anhydrous
Identification number:	CAS No: 7757-82-6
Registration number:	01-2119519226-43-0000

1.2 Use of the substance :

Identified uses:	Pharma Active ingredients, Food additive, Laboratory chemicals, Processing in manufacturing of fine chemicals
Unrecommended uses:	---

1.3 Company/undertaking identification :

Macco Organiques, s. r.o.

Zahradní 46c, 792 01 Bruntál, Czech Republic

IČ : 26819210 , phone: +420 – 555 – 530 334

SDS provider's contact: Jaroslav Zavadil , phone: +420 – 555 – 530 340, jaroslav.zavadil@macco.cz

1.4 Emergency telephone:

The first aid details may be consulted with toxicological information centre (TIS): Job-related illness clinic, Na Bojišti 1, 128 08 Praha 2, tel. 2 24 91 92 93 or 2 24 91 54 02. Permanent poisoning informations.

2: Hazard identification

The substance is **NOT** classified as dangerous according to Directive 1272/2008/ES.

2.1 Classification of the substance:

Acc. to Directive 1272/2008/ES	---
The most important adverse physicochemical, human health and environmental effects and symptoms :	
Not specified,	
The information shown on the label shall be given under heading 15.	

2.2 Information on the label:

Hazard pictogram	---	Signal word	---
Hazard statements	---		
Precautionary statements	---		
Additional information on label	none		

2.3 Other dangerousness:

Substance is NOT classified as PBT or vPvB.

3: Composition / information on ingredients

3.1 Substance

3.1.1 Constituent

Chemical identity	Index No.	CAS	EINECS	concentration	classification list number
Sodium sulphate	none	7757-82-6	231-820-9	99 - 100%	So far none

3.1.2 Impurities, stabilizers,

Chemical identity	Index No.	CAS	EINECS	concentration	classification list number
none	---	---	---	---	---

4: First aid measures

In all cases provide the physical and mental rest and avoid of getting chilled. In case of health problems or doubts inform physician and provide him with the information contained in this safety data sheet. Never pass a medication to a

Safety Data Sheet

Page : 2/6

According to Regulation (EC) No 1907/2006

Issue date : January 14., 2009

Revision # 3, date : March 20, 2020

unconscious person. Maintain personal safeness during rescue operation.

4.1 First aid description:

If inhaled:

Stop exposition, move the afflicted person to the fresh air, keep him warm and at rest. If symptoms persist seek medical attention. In case of unconsciousness start with resuscitation (artificial respiration, cardiac massage) and call for medical attention.

In the event of skin contact:

Remove contaminated clothes and footwear. Wash of any skin contamination with cool water and soap. Launder clothes before re-use. In case of persisting irritation contact physician .

In the event of eye contact:

Remove contact lenses if present. Rinse with a small amount of water for at least 10 minutes. Eyelids should be held away from the eyeball to ensure thorough rinsing. Seek medical attention.

Do not use neutralization solution!

If swallowed:

Wash out mouth with water and give plenty of water to drink (at least 300 ml). Do not induce vomiting. Seek medical attention. When vomiting, maintain supervision until the help arrives. Obtain medical advice if symptoms persist.

4.2 The most important acute and belated symptoms and effects:

Airways or eye irritation.

4.3 Immediate medical help instruction and special treatment:

None

5: Fire fighting measures

5.1 Extinguishing media:

Suitable extinguishing media:

Non-combustible substance . All extinguishing media are allowed, select the appropriate extinguishing media depending on the surrounding fire and environment.

Not suitable extinguishing media :

Strong water jet

5.2 Specific hazards :

Non-combustible substance. At temperatures over 890 °C decomposition occurs with release of gaseous sulfur dioxide.

5.3 Special protective actions for fire-fighters:

In case of fire use respirator with protective filter against the sulfur dioxide vapors and protective clothing.

6: Accidental release measures

6.1 Personal precautions:

Use personal safety working clothes – section 8. Prevent from skin and eye contact. Do not inhale dust. Well ventilate areas. Prevent from dust making. Other safety precautions – section 7.

6.2 Environmental precautions:

Prevent from escape to watercourses and soil and from their contamination. If there is no way to avoid it, immediately inform appropriate authority (police and firemen).

6.3 Methods for cleaning up:

Clean up contamination/spillages as soon as they occur. Collect as much as possible in a suitable clean container, preferably for re-use, otherwise for disposal (according section 13). Avoid generation of dust. Wash the spillage area with large quantities of water. When packaging is damaged, replace the amount into a new packaging with proper marking.

6.4 Other sections references:

Also follow the regulations in sections 8 and 13 of this safety data sheet.

Safety Data Sheet

Page : 3/6

According to Regulation (EC) No 1907/2006

Issue date : January 14., 2009

Revision # 3, date : March 20, 2020

7: Handling and storage

7.1 Handling:

Use the personal safety tools (section 8). Ensure fresh water for the first aid. Maintain the cleanness and tidiness on the working area. Provide basic employee training to prevent / minimize exposures and to report any healthy problems that may develop. Do not eat, drink or smoke during work. Avoid contact with skin and eyes. Wash hands duly with soap and water, take a shower. Use a body lotion.

7.2 Storage:

Store at a dry and well ventilated place, not above normal room temperature. Store in tightly closed packages.

7.3 Specific uses:

Industrial chemical, Pharma Active ingredients, Food additive, Laboratory chemicals

8: Exposure controls / personal protection

8.1 Exposure limit values

8.1.1 Exposure limits

- not specified

8.1.2 Biological limit values:

- not specified

8.1.3 DNEL and PNEC values:

- not specified

8.2 Exposure control

8.2.1 Occupational exposure control:

Operate in a well-ventilated area, avoid inhalation of dusts or mists (for liquids). Ensure shower and area for eyes rinsing. The mentioned personal safety instruments should be in compliance with EN standards.

Personal protective equipment:

<i>Respiratory protection:</i>	In the case of high dust levels wear suitable respiratory protective equipment, ie. dust mask or respirator conforming to EN standards. Recommended filter = particle filter,P2.
<i>Hand protection:</i>	Wear suitable chemical resistant protective gloves for frequent or prolonged operations tested to EN374 with an acceptable permeation test. Suitable materials include neoprene (chloroprene), PVC and nitrile rubber. Break through time is > 480 min. Contaminated gloves should be carefully rinsed with water before reuse. Non suitable materials: Leather gloves.
<i>Eye / face protection:</i>	Wear suitable eye/face protection. Most materials for protective goggles and face visors will probably be suitable eg. polycarbonate.
<i>Skin and body protection:</i>	Normal working clothes is suitable.

Do not eat, drink or smoke during work. Immediately remove contaminated clothing. Wash hands duly with soap and water, take a shower. Use a body lotion.

8.2.2 Environmental exposure controls:

Prevent from escape to environment.

9: Physical and chemical properties

9.1 General information :

Physical state (at 20 °C):	Solid - crystals
Colour:	White
Odour (fragrance):	odourless
Threshold odour value:	odourless

9.2 Important health, safety and environmental information :

pH (at 20 °C):	7 (5 % solution at 20 °C)
Melting point:	880 °C
Boiling point:	> 1700
Flash point:	Not applicable, incombustible matter
Evaporation rate:	Not applicable
Flamability (solid, gas) :	The substance is non-flammable

Safety Data Sheet

Page : 4/6

According to Regulation (EC) No 1907/2006

Issue date : January 14., 2009

Revision # 3, date : March 20, 2020

Explosion limits	<i>lower:</i>	Not available, non-explosive matter
	<i>upper:</i>	Not available, non-explosive matter
Vapour pressure:		irrelevant
Vapour density:		irrelevant
Relative density:		2,68 g/cm ³
Water solubility (at 20 °C) :		19 g / 100 ml
Solubility in solvents:		Not available
Partition coefficient n-octanol/water:		Not available
Self-ignition temperature:		Not applicable
Decomposition temperature:		Undetermined
Viscosity:		Not applicable
Explosive properties:		The substance is non-explosive
Oxidizing properties:		The substance is non-oxidizing
9.3 Other information:		
Fat solubility:		Not available
Conductivity:		Not available
Gas group:		Not applicable

10: Stability and reactivity

Stable under recommended storage and handling conditions.

10.1 Conditions to avoid:

To avoid thermal decomposition do not overheat.

10.2 Materials to avoid:

10.3 Hazardous decomposition products:

None at normal use. At temperatures over 890 °C decomposition occurs with release of gaseous sulfur dioxide.

11: Toxicological information

Acute toxicity:		
- LD ₅₀ oral, rat (mg.kg ⁻¹):		5989
- LD ₅₀ dermal, rabbit (mg.kg ⁻¹):		Not specified
- LC ₅₀ inhalation, rat, for aerosols or particles (mg.l ⁻¹):		Not specified
Skin irritation:		No irritation
Eye irritation:		No irritation
Sensitisation:		Substance does not have sensitive effects on skin and respiratory system
Carcinogenicity:		Not carcinogenic substance
Mutagenicity:		Not mutagenic substance
Toxicity for reproduction:		Not toxic substance for reproduction
Toxicity for specific target body – single exposition		Substance does not have toxic effects within single exposition
Toxicity for specific target body – repeated exposition:		Substance does not have toxic effects within repeated exposition
Irritation if inhaled:		Substance does not have irritable effects
Other information: none		

12: Ecological information

12.1 Ecotoxicity:		
- LC ₅₀ 96 hr., fish (mg.l ⁻¹):		Not specified
- EC ₅₀ 48 hr., daphnia (mg.l ⁻¹):		Not specified
- EC ₅₀ 72 hr. algae (mg.l ⁻¹):		Not specified
- EC ₅₀ 30 min. bacteria (mg.l ⁻¹):		Not specified
12.2 Mobility :		Not specified

Safety Data Sheet

Page : 5/6

According to Regulation (EC) No 1907/2006

Issue date : January 14., 2009

Revision # 3, date : March 20, 2020

12.3 Persistence and degradability:

Not specified (not relevant for inorganic substances)

12.4 Bioaccumulative potential:

Not specified

12.5 Results of PBT assessment:

Substance is not classified as PBT or vPvB.

12.6 Other adverse effects:

Not specified.

13: Disposal considerations

13.1 Product:

If recycling or reuse is not practical then the product must be disposed of by authorized personnel in accordance with local, state or national regulations. Never dispose by flushing into the drainage! Waste former is responsible for its sorting and disposal.

Special safety precaution for recommended waste treatment:

Preferably dispose in independent container.

13.2 Packaging:

If recycling or reuse is not practical then packaging must be disposed of by authorized personnel in accordance with local, state or national regulations. Clean packaging with water and dispose of washings in accordance to local regulations. Packaging can be passed to a packaging return system after the cleaning.

13.3 Legal waste regulations:

Directive 2008/98/ES

National or regional provisions may be in force !

14: Transport information

14.1 ADR/RID (Land Transport) :

Not classified as hazardous for transportation.

14.2 ADN/ADNR (Inland Waterway Transport):

Not classified as hazardous for transportation.

14.3 IMDG (Marine Transport) :

Not classified as hazardous for transportation.

14.4 ICAO/IATA (Air Transport) :

Not classified as hazardous for transportation.

15: Regulatory Information

15.1 Health, safety and environmental information on the label : ---

15.2 Chemical Safety Assessment:

Not available.

15.3 National legislation:

Regulation (EC) No. 1907 / 2006 / ES, REACH

Regulation (EC) No. 1272 / 2008 / ES, CLP

National laws or provisions may be in force !

16: Other information

Changes made in Safety Data Sheet in terms of revision:

Revision of Safety data sheet in terms of avoidance of Directive 67/548/EHS.

Key or explanation for abbreviations:

DNEL Derived No Effect Level (derived concentration of substance, at which no unfavourable effects occur)

PNEC Predicted No Effect Concentration (prediction of substance concentration, at which no unfavourable effects occur)

PEL Acceptable exposure limit, long-term (8 hours)
