Macco is a globally recognized manufacturer of high-purity inorganic and organic mineral salts for the pharmaceutical industry, dietary supplements, infant nutrition, veterinary products, mineralized salts, and many other applications where exceptional purity and consistency are essential.

All our chemical production is carried out under GMP conditions, with the final processing steps conducted in ISO Class 8 (GMP Grade D) cleanrooms to ensure uncompromised product quality.

We also offer a wide range of customized services, including salt milling, sieving, blending, and homogenization - always tailored to the needs of our customers. With decades of experience, Macco has built a strong reputation as a reliable and innovative partner, currently supplying nearly every major market in more than 80 countries worldwide. Our commitment to excellence is supported by comprehensive quality certifications: **GMP ICH Q7**, **FSSC 22000**, **ISO 9001**, **CEP/CoS**, **DMF**, and inspections by the **US FDA** and the **EU authorities**. We are also proud members of **SEDEX**, reflecting our strong dedication to responsible business practices and supply chain transparency.

We closely collaborate with our partners to develop tailor-made solutions and ensure reliable, timely deliveries that meet even the most demanding requirements. Sustainability and environmental responsibility are integral to our long-term strategy, and all our products are manufactured in Europe in strict compliance with EU quality and regulatory standards.

| Product                                 | API | excipient | nutrition | infant formulas | bottled water |
|-----------------------------------------|-----|-----------|-----------|-----------------|---------------|
| Ammonium Dihydrogen Phosphate           |     | •         | •         |                 |               |
| Ammonium Sulphate                       | •   | •         | •         |                 |               |
| Calcium Acetate                         |     | •         | •         |                 |               |
| Calcium Gluconate                       | •   | •         | •         |                 |               |
| Calcium Glycerophosphate                | •   | •         | •         | •               |               |
| Calcium Hydroxide                       |     | •         | •         | •               | •             |
| Calcium Chloride Dihydrate              | •   | •         | •         | •               | •             |
| Calcium Chloride liquid (pure)          | •   | •         | •         |                 |               |
| Calcium Propionate                      |     | •         | •         |                 |               |
| Calcium Sulphate Dihydrate              |     | •         | •         |                 | •             |
| Magnesal                                |     | •         | •         |                 |               |
| Magnesium Carbonate                     |     | •         | •         |                 |               |
| Magnesium Glycerophosphate              | •   | •         | •         | •               |               |
| Magnesium Chloride 4,5Hy                | •   | •         | •         | •               |               |
| Magnesium Chloride Hexahydrate          | •   | •         | •         | •               | •             |
| Magnesium Lactate Dihydrate             | •   | •         | •         |                 |               |
| Magnesium Oxide (heavy/light)           |     | •         | •         |                 |               |
| Magnesium Sulphate Dried                | •   | •         | •         | •               | •             |
| Magnesium Sulphate Heptahydrate         | •   | •         | •         | •               | •             |
| Manganese Sulphate Heptahydrate         |     | •         | •         |                 |               |
| Potassium Bicarbonate                   |     | •         | •         | •               | •             |
| Potassium Carbonate                     |     | •         | •         |                 |               |
| Potassium Citrate Monohydrate           |     | •         | •         | •               |               |
| Potassium Glycerophosphate              |     | •         | •         |                 |               |
| Potassium Hydroxide                     |     | •         | •         | •               |               |
| Potassium Chloride                      |     | •         | •         | •               | •             |
| Potassium Nitrate                       |     | •         |           |                 |               |
| Potassium Sulphate                      | •   | •         | •         |                 |               |
| Sodium Acetate Anhydrous                | •   | •         | •         |                 |               |
| Sodium Acetate Trihydrate               | •   | •         | •         |                 |               |
| Sodium Bicarbonate                      | •   | •         | •         |                 | •             |
| Sodium Carbonate Anhydrous              |     | •         | •         |                 |               |
| Sodium Citrate Dihydrate                | •   | •         | •         | •               |               |
| Sodium Diacetate                        |     | •         | •         |                 |               |
| Sodium Dihydrogen Phosphate Monohydrate |     | •         | •         |                 |               |
| Sodium Gluconate                        | •   | •         | •         |                 |               |
| Sodium Glycerophosphate                 | •   | •         | •         |                 |               |
| Sodium Chloride                         | •   | •         | •         |                 | •             |
| Sodium Lactate (50%, 60%)               | •   | •         | •         |                 |               |
| Sodium Propionate                       |     | •         | •         |                 |               |
| Sodium Sulphate Anhydrous               | •   | •         | •         | •               | •             |
| Sodium Sulphate Decahydrate             | •   | •         | •         |                 |               |
| Sodium Hydrogen Phosphate Heptahydrate  |     | •         | •         |                 |               |
| Sodium Hydroxide                        |     | •         | •         |                 |               |
| Strontium Chloride Hexahydrate          |     | •         | •         |                 |               |
| Talc                                    |     | •         | •         |                 |               |
| Urea                                    | •   | •         | •         |                 |               |
| Zinc Sulphate Heptahydrate              | •   | •         | •         | •               | •             |
| Zinc Sulphate Monohydrate               | •   | •         | •         | •               |               |
| Zinc Sulphate Liquid                    |     | •         | •         |                 |               |
